Meridian have been examined by the notes of the survey thereof referred to in the margin and corrected conformably therewith.

[illegible]

1806 The line between Sects 17 & 20  
was run West on sand along cot-  
tonwood East, the length thereof  
was 73.00 ch.  
The line betw Sects 20 & 21  
depended on the  
by note, that  
seemed to have  
disappeared  
said line and therefore it  
was resumed and found to be  
570 links longer than was  
stated in the first survey.  
The notes of the Surveyors of  
this Township do not show  
the survey of the whole length  
betw Sects 14 & 15, but  
only betw  $\frac{1}{4}$  Section at 600  
chains... also some notes  
of the survey of the  
Sect. 20 & 23 incor-  
porated given to a  
75.00 chains from  
Sects 25, 26 & 23 &c.  
The field notes of the survey  
the true line betw Sects  
show that the 75.00 chain  
line was set by  
range of 75.00 chains  
from the post corner to  
14.15, 22 & 23 although  
whole length of the line  
found to be 81.00 chains.

Plat of Townships 8 & 9 South of the base line in Range 11 East of the 3<sup>rd</sup> principal Meridian.

VOL. 6

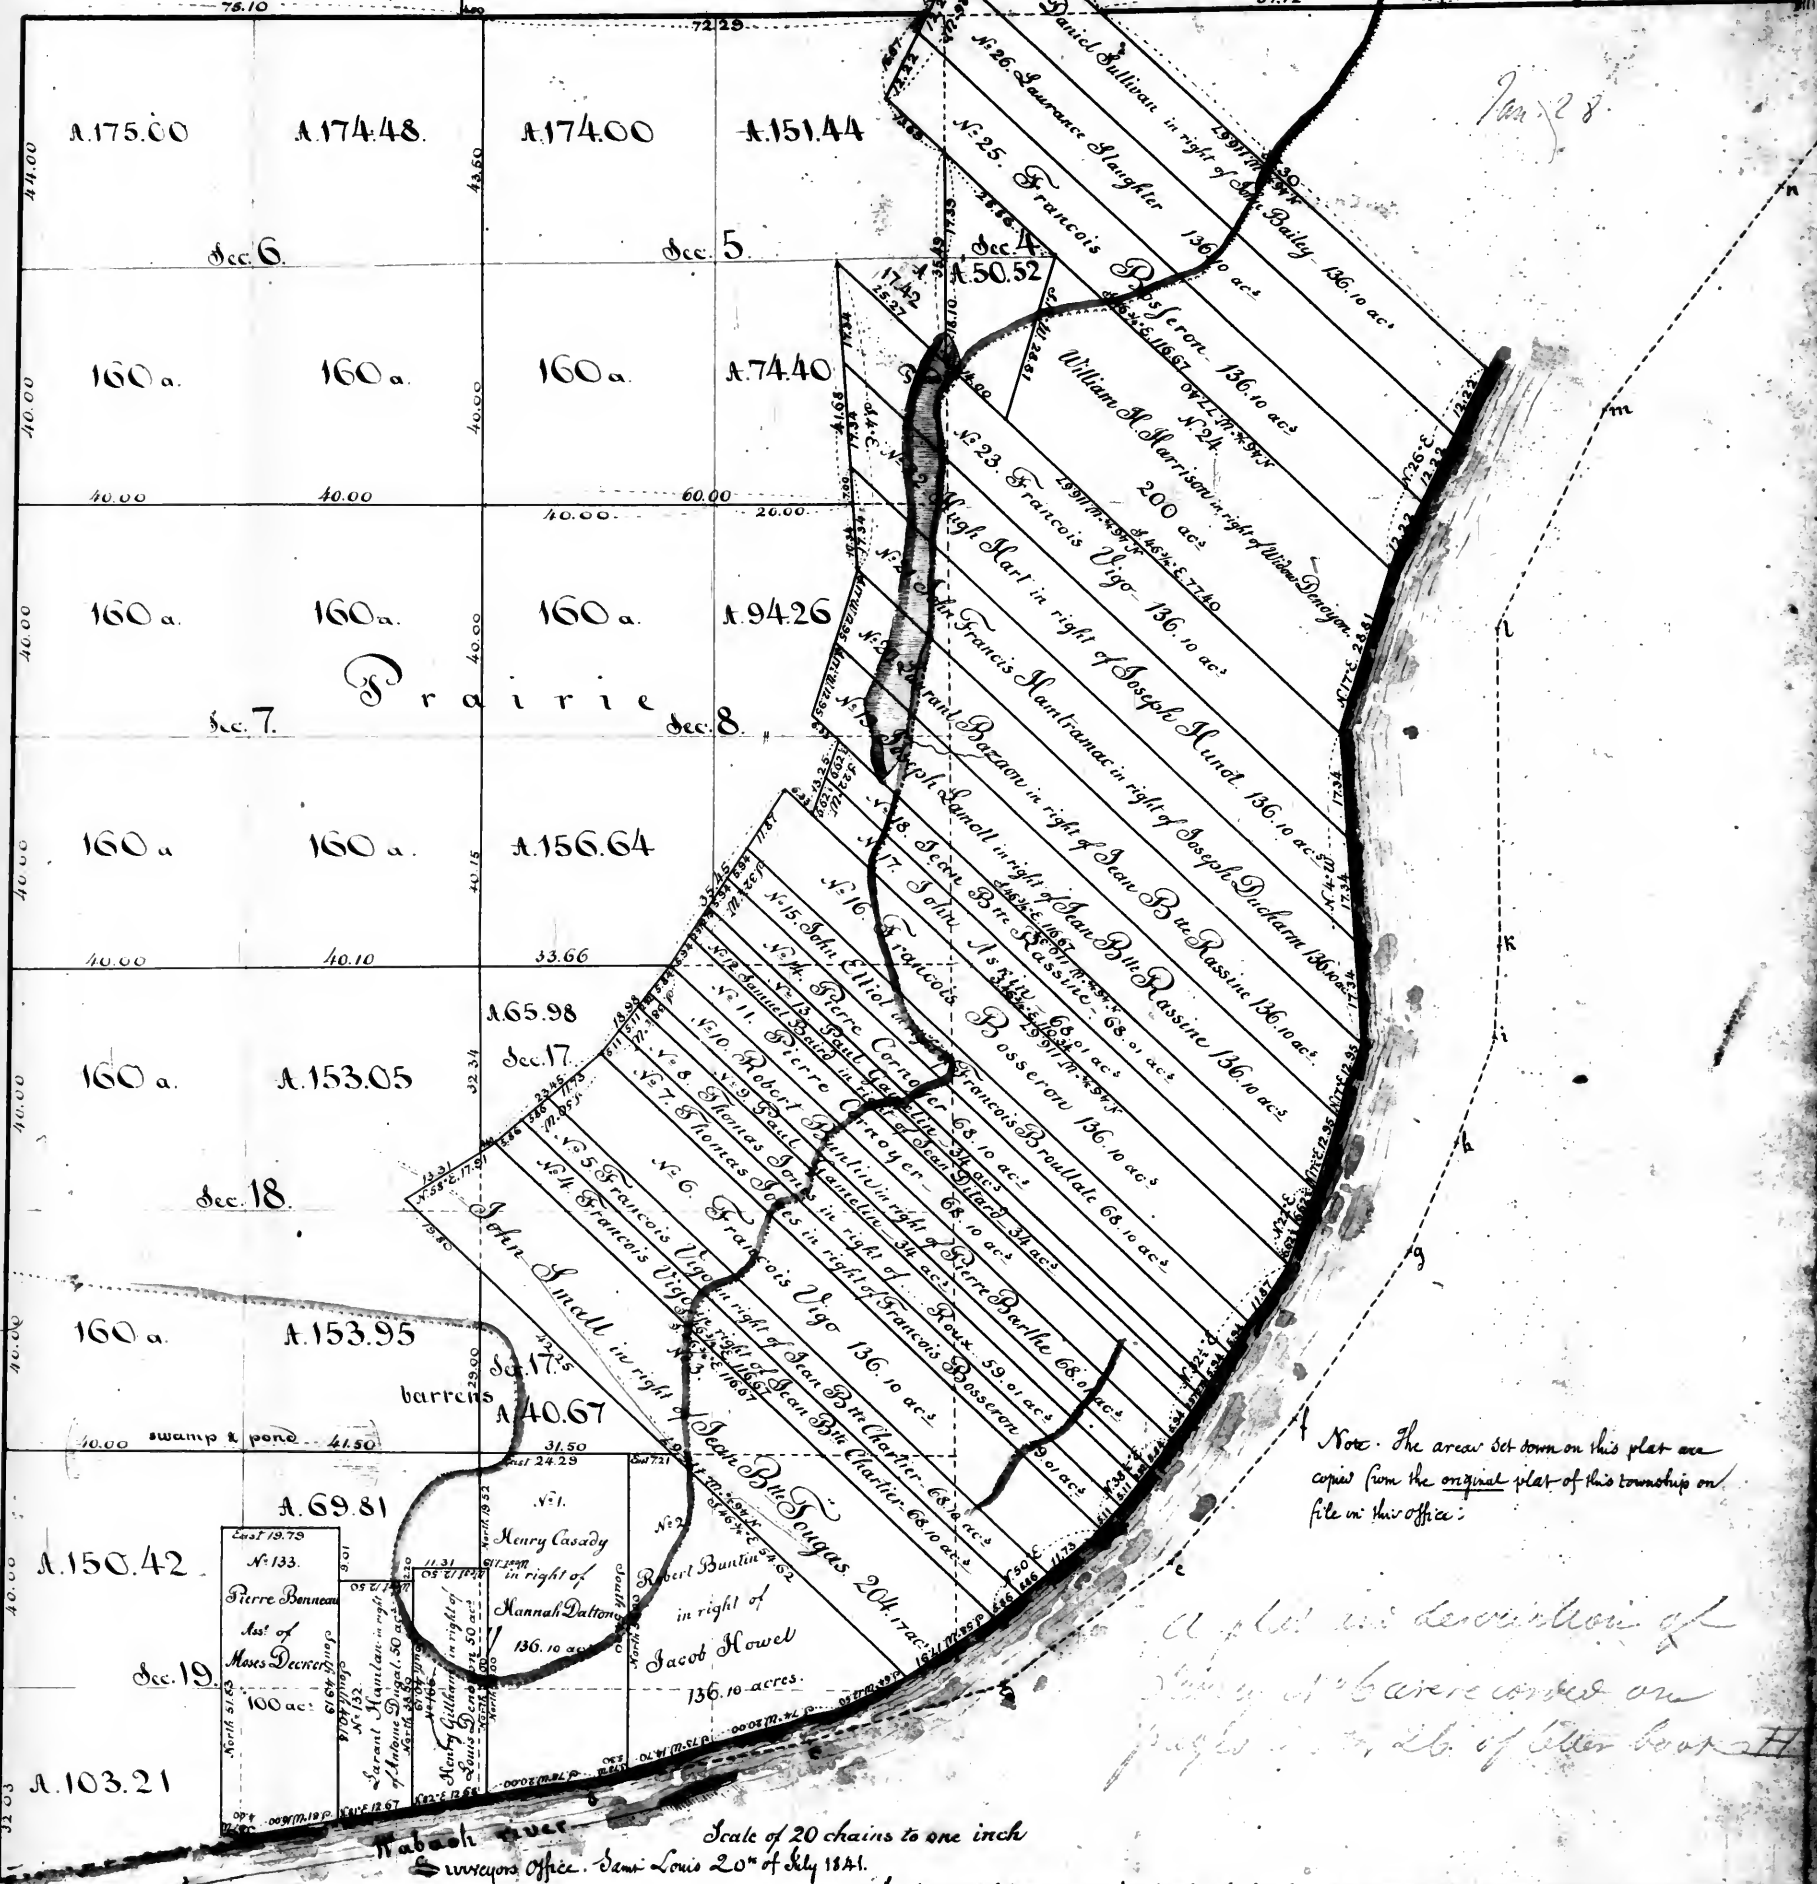

354 75.10

This is a detailed map of a section of the Wabash River, showing various land parcels, sections, and geographical features. The map is divided into a grid of sections, with some sections labeled with numbers like 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20. The Wabash River is shown flowing along the bottom and right side of the map. A small settlement, "Wabash", is indicated near the bottom center. The map also shows various landmarks, including a bridge, a mill, and a church. The map is titled "Map of the Wabash River" and includes a scale bar and a north arrow.

Surveyed by E. Buckingham D.S. 1905

# Township No 3 North of the Base line in Range No 10 West of the 2<sup>nd</sup> principal Meridian

Note: The areas set down on this plat are copied from the original plat of this township on file in this office.

A plat in description of survey of 26 acres corner on page 10 of 26 of letter book H

Scale of 20 chains to one inch  
 Surveyors Office. Saint Louis 20<sup>th</sup> of July 1841.

The above plat of fractional township 3 north of the base line, range 10 west of the 2<sup>nd</sup> principal meridian (except of that part lying on the N.E. of the survey of Daniel Sullivan in right of the Bailey, because there are no field notes found of the line between sections 3 & 4) is strictly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. The field notes of the north and west boundary lines of the township, of the subdivision lines and meanders of the western bank of the Wabash river, are neither dated, nor signed: The said meanders are represented on the above plat by the dotted lines ac. 100. 100. 100. 100. up to the line between T<sup>3</sup> 34 & 35, but as no close, the field notes show that said meanders were surveyed on the river, at a distance of 100 to 200 links from the base of the River - The 50 paces down land on the plat, now surveyed or resurveyed by R. Denton, D. S., as appears in 1820, under the authority of an appointment from Sarah Mansfield, Surveyor General at Cincinnati, John Darius, Register, and Nathaniel Lewis, Receiver of the land office at Vincennes, Indiana. The course and distances set down along the bank of the river are according to Denton's field notes of the above thing purchased survey.

*John Reed*  
 Surveyor of the public lands in  
 the State of Illinois & Missouri.

23 N. 20° 15' E. 1000

Section 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100

Surveyor's Office  
March 10th 1843

I certify, that the survey of the  
678.9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100  
was made, and represented in the above plat, on land then  
in other possession with the first plat of the same, as surveyed  
by Robert Carter in the 18th 11th 12th 13th 14th 15th 16th 17th 18th 19th 20th 21st 22nd 23rd 24th 25th 26th 27th 28th 29th 30th 31st 32nd 33rd 34th 35th 36th 37th 38th 39th 40th 41st 42nd 43rd 44th 45th 46th 47th 48th 49th 50th 51st 52nd 53rd 54th 55th 56th 57th 58th 59th 60th 61st 62nd 63rd 64th 65th 66th 67th 68th 69th 70th 71st 72nd 73rd 74th 75th 76th 77th 78th 79th 80th 81st 82nd 83rd 84th 85th 86th 87th 88th 89th 90th 91st 92nd 93rd 94th 95th 96th 97th 98th 99th 100th

Scale of forty Chains to an Inch

Pursuant to a contract with and instructions from Isaac Henshaw Esquire Surveyor General of the United States  
bearing date the Day of September A.D. 1846 I have admeasured laid out and surveyed the above described Township  
of Land and at both such marks and bounds both natural and artificial as are represented on said Plat  
and described in the field notes made then and returned with this Plat into the Surveyor General's  
Office but just this 25th March 1855

E. Buckingham Esq. Surveyor

Variation E. 6° 15'

# *Township 5 North of the base line Range 11 West of 2<sup>nd</sup> principal Meridian*

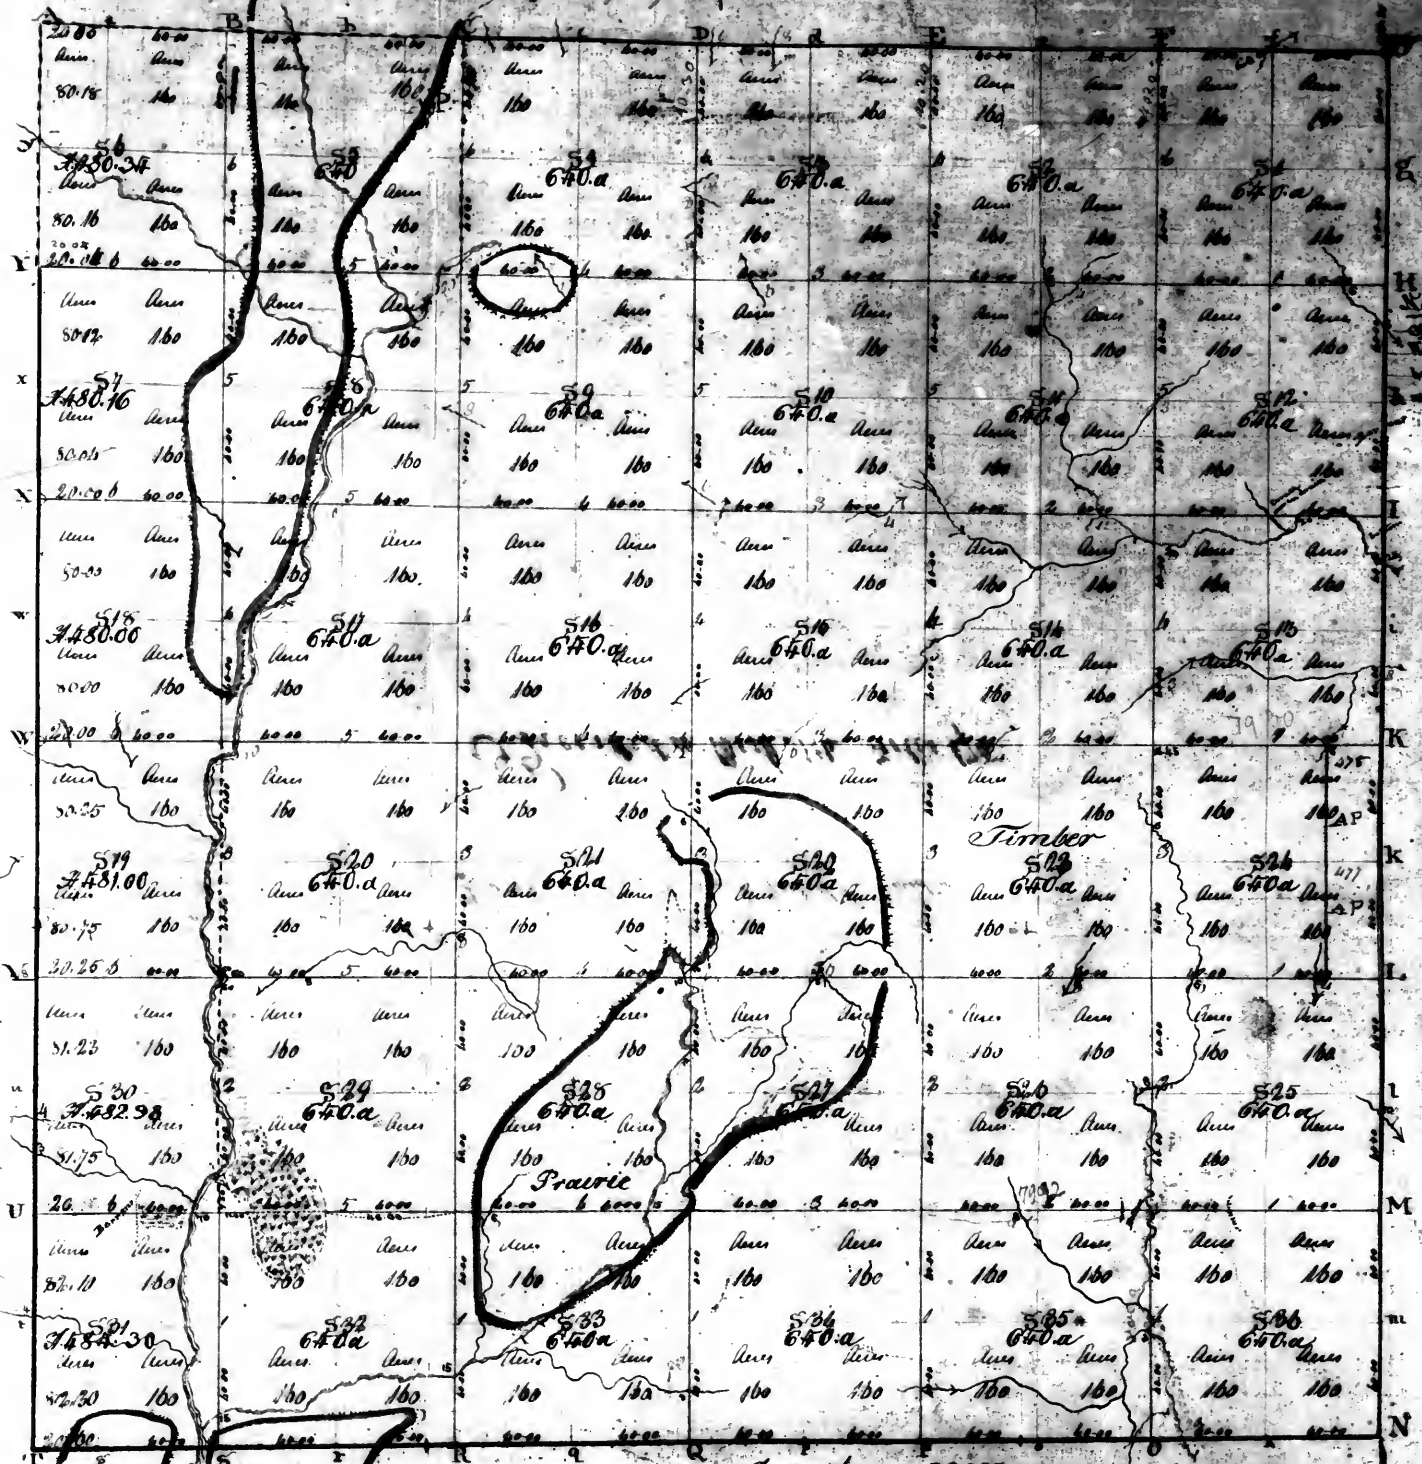

Surveyors Office. Saint Louis 28<sup>th</sup> of January 1841.  
 The above plat of township 5 north of the base line range 11 west of the 2<sup>nd</sup> principal meridian, with the exceptions hereafter named, is mostly conformable to the field notes of the survey thereof on file in this office which have been examined and approved. The south and the east boundaries of the township, the north boundaries of sections 1, 2, 3 & 4 - the west boundaries of sections 31, 30, 19, 18, 17 - and the subdivision lines except the line between sections 4 & 5 - 19 & 20 & 29 & 30, were run by G. B. Cunningham, under contract of the 1<sup>st</sup> of September 1804: - There are no notes in this office of the north and west boundaries of section 6 - east of the line between sections 4 & 5 - 19 & 20 & 29 & 30 - these lines were however laid down from the township plat, and fixed by the aforementioned G. B. Cunningham, on the 26<sup>th</sup> of March 1805, and to which this plat is this day annexed.

*William H. Harrison*  
 Surveyor of the public lands in  
 the State of Missouri

boundary, sent this day to  
the Comptroller of the Genl. &c.

Pursuant to a Contract with & instructions from said Missouri Surveyor General of the United States bearing date the day of 1851 I have admeasured surveyed the above described Township & do hereby Certify that it had such marks & bounds both natural & artificial as are represented on said plot & described in the field notes made thereof & returned with the plot into the Surveyor General's Office. Continued this 11<sup>th</sup> day of July 1851

Surveyor's Office, Saint Louis February 27<sup>th</sup> 1853; Re-calculated and subdivided the North half and S.E. q. of Sec. 1, and S.E. q. of Sec. 2, and subdivided South East quarter of Sec. 1, and S.E. q. of Sec. 2, and subdivided the S.E. q. of Sec. 2, South West of the Indian boundary, all under the act of Congress of the 3<sup>rd</sup> of March 1803, in S.E. 2 & 4 1/2.

That part of Sections 16 & 2 north of the Indian boundary line calculated November 12<sup>th</sup> 1853

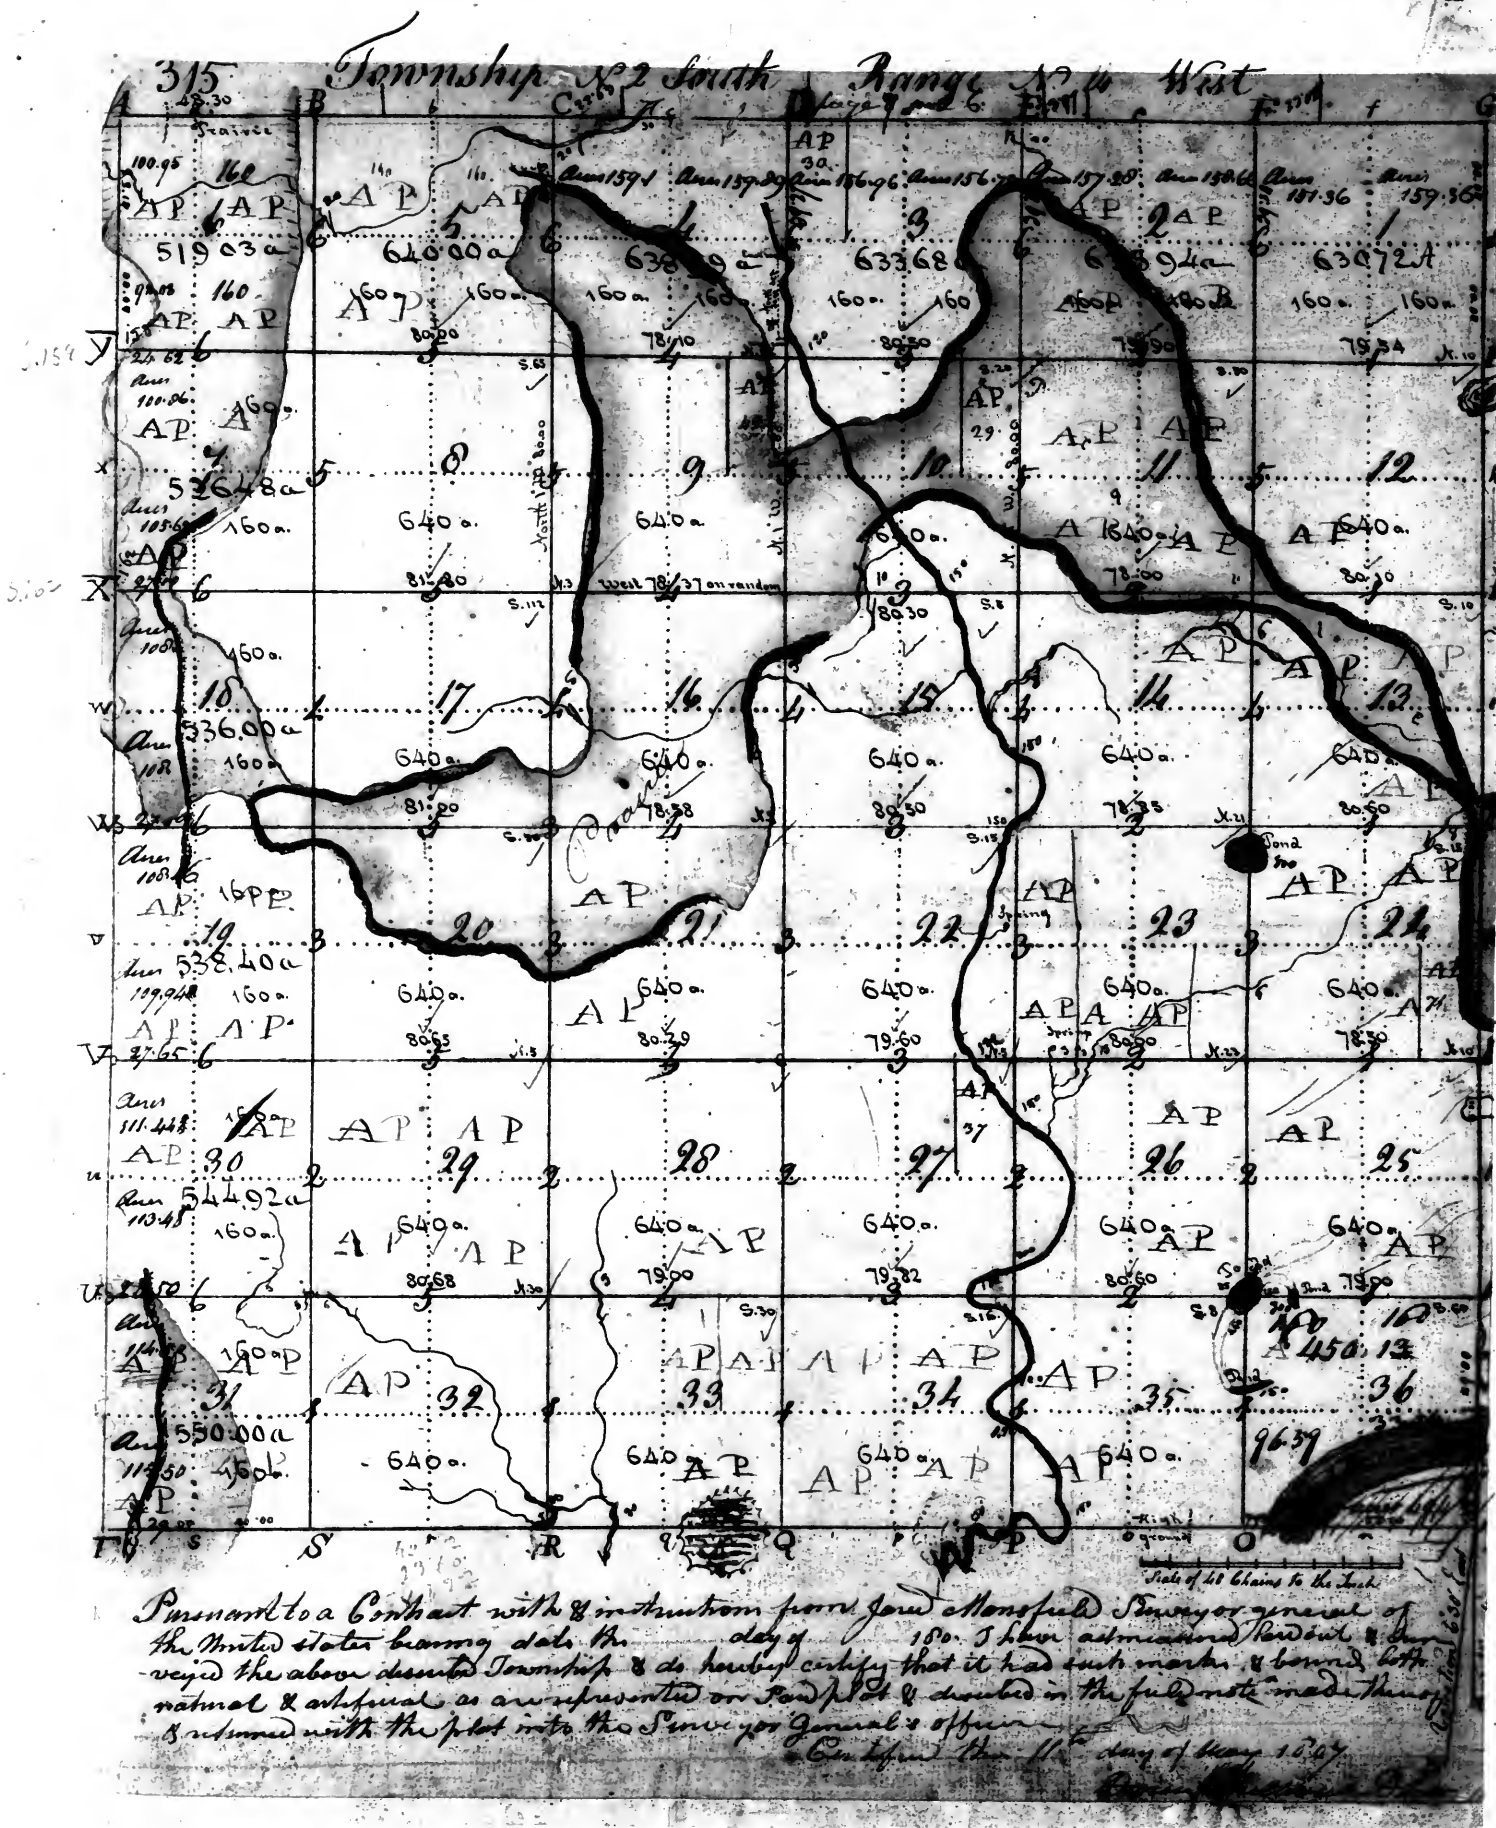

Surveyor's Office  
St. Louis

The lines of the above plot of Township 1 South of the base line in Range 14 West of the 2<sup>nd</sup> principal Meridian have been examined by the notes of the survey thereof referred to in the margin and corrected conformably therewith.

Record

7

Reference to the notes of the survey of the Township by which the lines of the plat have been examined & corrected of the North & West boundaries in Subbook 316 of the South boundary, Subdivision & Meanders in book 315.

The field notes of the survey of the East boundary cannot be found: these were said line has not been examined.

Note. The length of the line between Sect 36 and its point of intersection on the Townline and also the point of intersection of the line between Sect 36 & thereon are not stated in the field notes.

Surveyor's Office  
St. Louis, February 17th 1837.

Aggregate area 22204.29 acres

The lines of the above plat of Township 2 South of the base line in Range 14 West of the 2<sup>d</sup> principal Meridian (with exception of the East boundary) have been examined by the notes of the survey thereof referred to in the margin and corrected conformably therewith.

*James H. Mansfield*

Considered as a Record

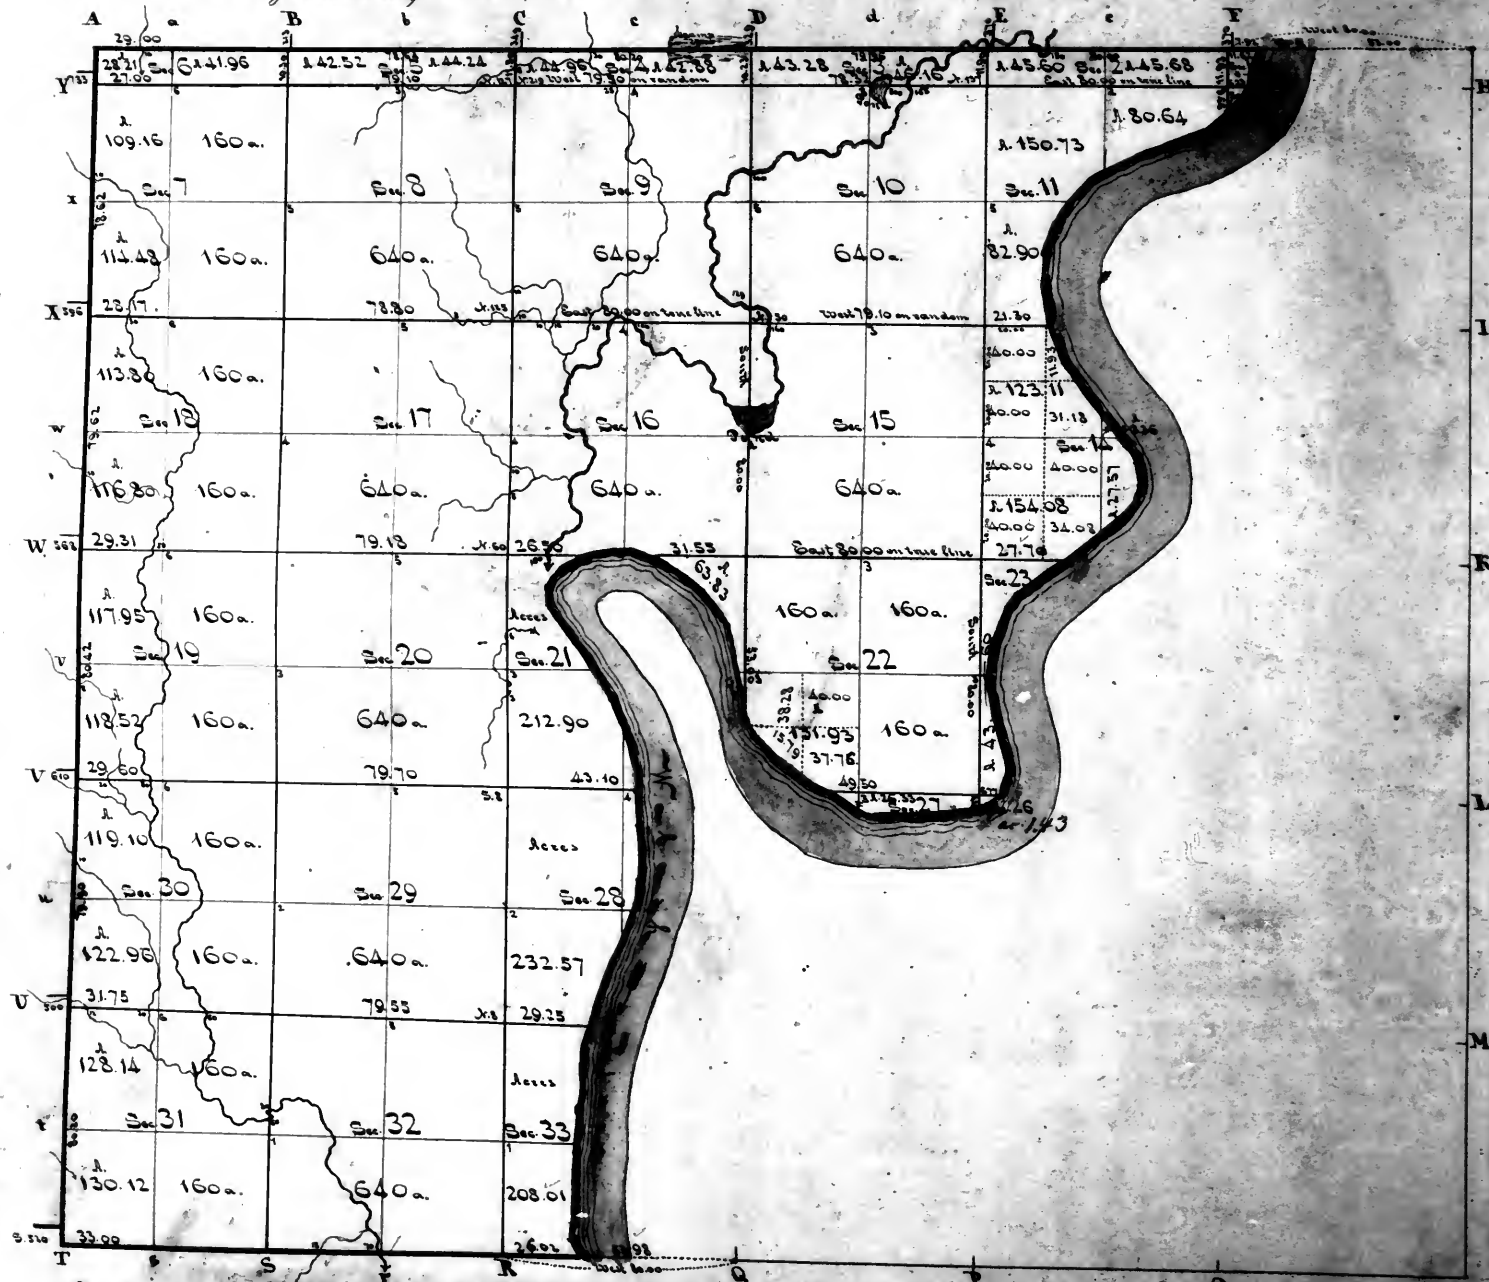

# Map of Township 3 South of the base line in Range 14 West of the 2<sup>d</sup> principal Meridian

Reference to the fieldnotes of the survey of this Township, by which the lines of this plat have been constructed, of the Northboundary in Subd. lot 316, of the West boundary in Subd. lot 316, of the Southboundary Subdivision & Meanders of Wakarusa River in Subd. lot 316.

Notes. Subd. lot 316 contains a survey of the Westboundary of this Township on random line, the fieldnotes of the survey on the true line cannot be found, said boundary is therefore laid down on this plat agreeable to the old plat on file.

As the fieldnotes of the meanders of the Wakarusa River from corner of Sects 21 & 22 down to the upper corner of Sects 16 & 21 cannot be found, this part of the River is copied from the old plat on file.

The meanders of Wakarusa R. along Sects 14 & 28 do not close well.

Surveyor's Office

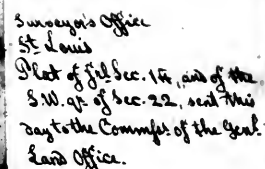

St. Louis, February 17<sup>th</sup> 1837.

The lines of the above plat of Township 3 South of the base line in Range 14 West of the 2<sup>d</sup> principal Meridian (except the lines stated in the margin) have been constructed from the fieldnotes of the survey thereof referred to in the margin, and the areas of this plat have been correctly copied from the old plat on file in this Office.

David S. Smith

86

Township No. 14 South Range No. 14 West 13th Meridian

Pursuant to a contract with & instruction from Land Manifest Surveyor of the United States bearing date the day of in the year of I have advantage laid out & surveyed the above described Township & do certify that it had such marks & bounds both natural & artificial as are represented on the said plat & described in the field notes made thereof & returned with the plat into the Surveyor General's office Certified this thirtieth day of April 1867

The Record of the plat of this township, in the Surveyor General's Office (which is a copy from the original) gives the contents of the N. 1/2 of Sec. 35 as 595.20 acres. on this plat it is given at 599.20 acres which may be perhaps the true contents of the section & is evidently greatly in excess, and was probably erroneously copied from the adjoining section (36). This township plat should be taken from the field notes.

Surveyor's Office Saint Louis February 25. 1863. Re-calculated and subdivided all of Sec. 25 of T. 14 S., R. 14 W., 13th M. (see also 1857, in Act of April 1857). 599.20 acres of Sec. 25 (see also 1857, in Act of Congress of the 5th of April 1857, and in 5th M. 1857).  
Surveyor's Office St. Louis November 26th 1866. Recalculated and subdivided South 1/2 of Sec. 25 of T. 14 S., R. 14 W., 13th M. and subdivided South 1/2 of Sec. 25 of T. 14 S., R. 14 W., 13th M. and subdivided South 1/2 of Sec. 25 of T. 14 S., R. 14 W., 13th M.

The map shows a section of land divided into a grid of sections. The sections are numbered and contain various numerical data, including bearings and distances. The river/road is shaded and labeled "Nebraska river". The map includes various survey points, bearings, and distances. A scale bar at the bottom right indicates "Scale of 40. chains to an inch."

Key features and data points on the map include:

- Grid Sections:** The map is divided into a grid of sections, each containing numerical data and handwritten notes.
- Nebraska river:** A winding river or road, shaded in grey, runs through the center of the map.
- Survey Points:** Numerous points are marked with numbers and letters, indicating specific locations on the map.
- Bearings and Distances:** Various bearings (e.g., N 15° 30' E, S 85° 15' E) and distances (e.g., 150.00, 160.00) are provided for the survey lines.
- Scale:** A scale bar at the bottom right indicates "Scale of 40. chains to an inch."

Office of the Surveyor General for Illinois & Missouri  
St Louis May 8th 1852

St Louis May 8<sup>th</sup> 1862

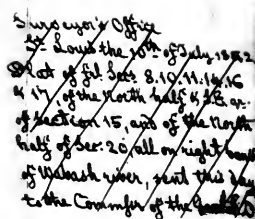

The above Plat of Townships 5 South of the base line Range 14 West of the 2<sup>nd</sup> principal Meridian which lies West of the Wabash river, is strictly conformable as far as concerns the exterior and subdivision lines to the field notes of the survey thereof on file in this Office, which have been examined and approved. — As no field notes of the meanders along the western & right bank of the Wabash in this Township are found in this Office, the course of that river is copied from the Original plat, which purports to have been returned by the Deputy Surveyor is dated, the 11<sup>th</sup> May 1807, and signed by Daniel Sullivan Deputy Surveyor and is found at Page 10 of Volume VII of Illinois plats in this Office. — The areas of the tract made fractional by the river, are laid down on the plat in conformity with a statement thereof, transmitted on 16<sup>th</sup> Nov: 1851 to the Surveyor General by the Register at Shaw-  
neetown. —

M. Lewis Clark  
Surveyor General.

This is a detailed land survey map of a section of the Dakota Territory, showing a grid of 36 sections (S4-S36). The map includes a river, a railroad, and various land parcels with acreage and survey data. The map is titled "Dakota Territory" and "Section 36".

The map shows a grid of 36 sections, each labeled with a section number (S4-S36) and its acreage. The sections are arranged in a 6x6 grid. The map also shows a river, a railroad, and various land parcels with acreage and survey data. The map is titled "Dakota Territory" and "Section 36".

The map includes the following information:

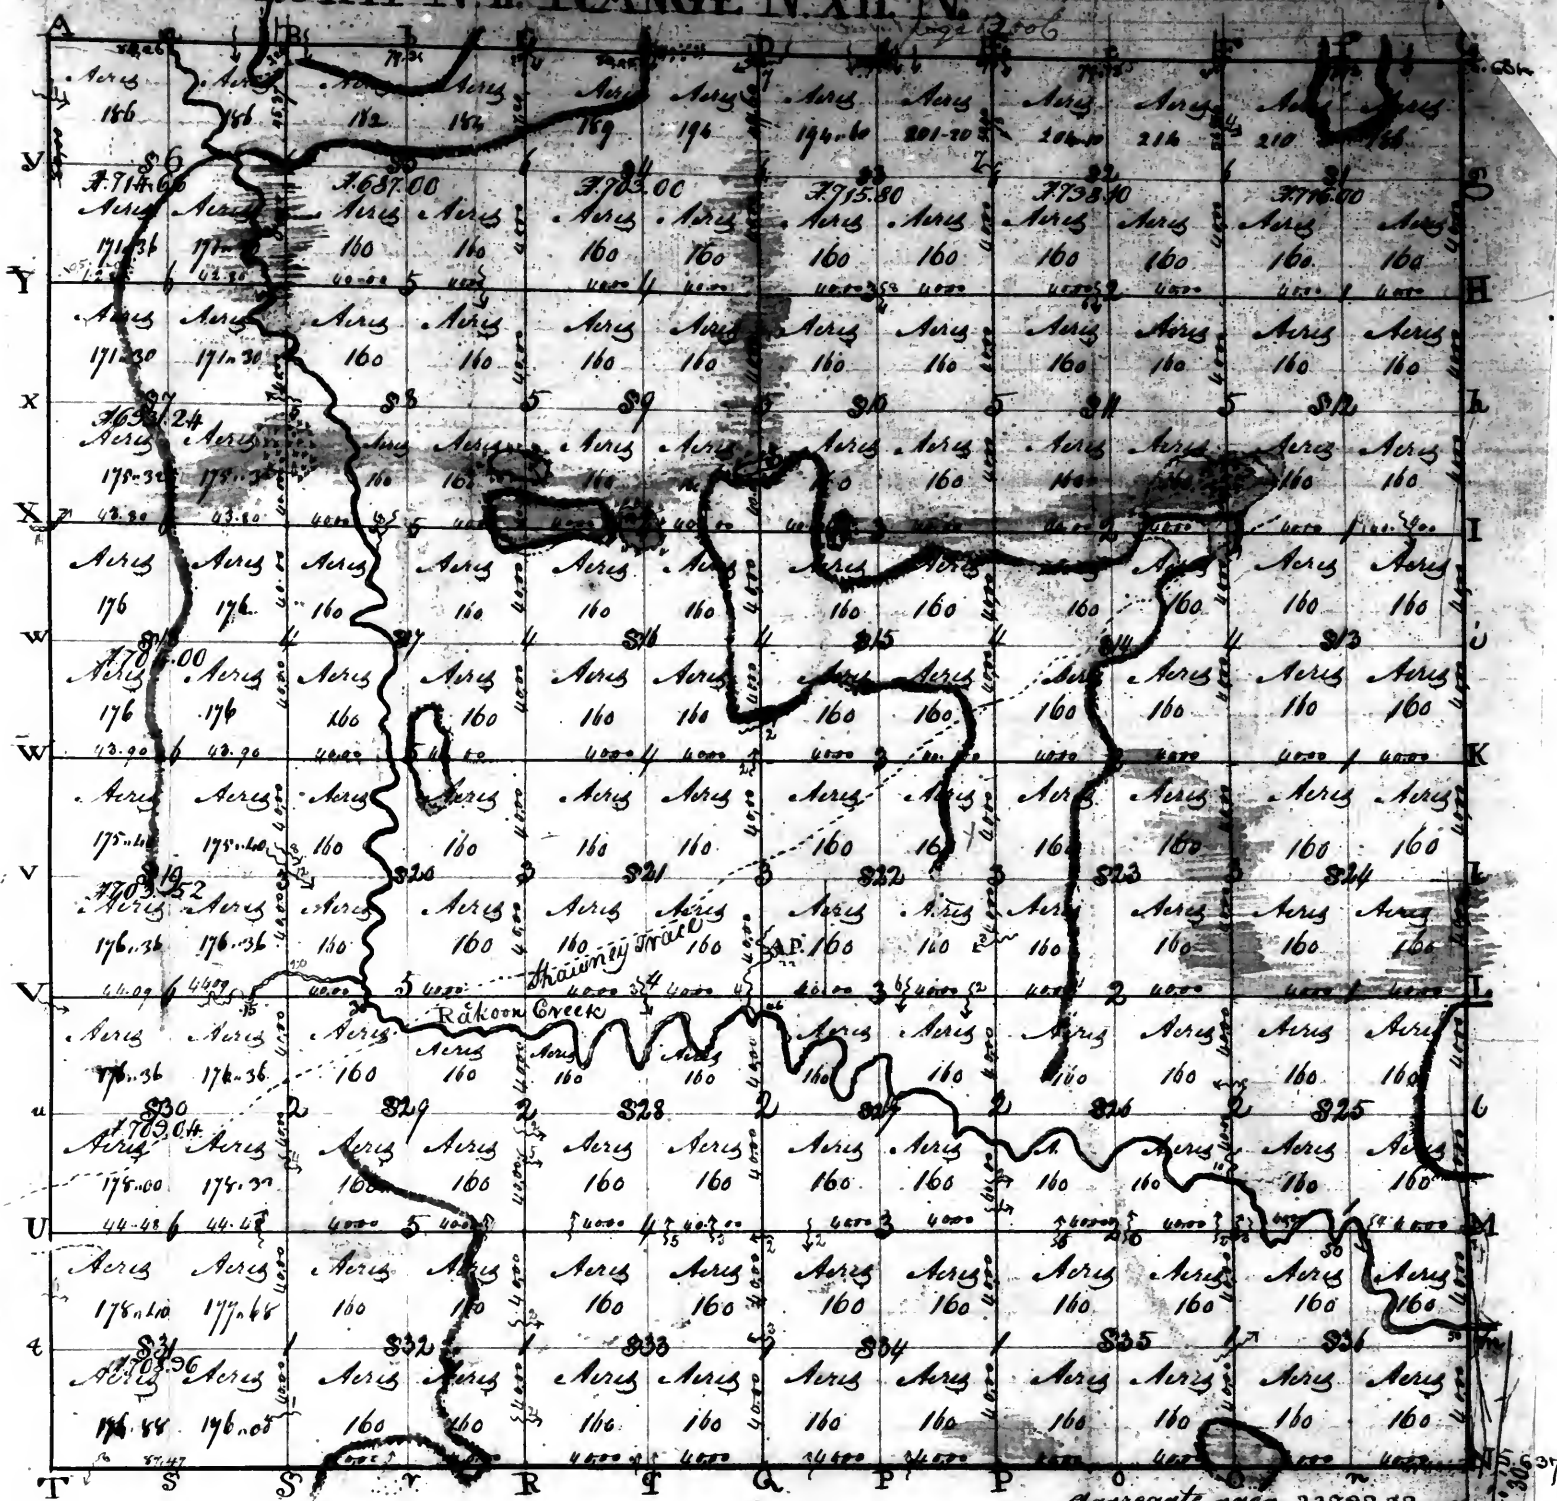

- Section numbers (S4-S36) and acreage (e.g., 160.0, 640.0, 175.32).
- Survey data (e.g., 175.32, 175.32, 175.32, 175.32, 175.32, 175.32).
- Geographical features (e.g., River, Railroad, Prairie, Timber).
- Survey lines and boundaries.

The map is a detailed land survey map of a section of the Dakota Territory, showing a grid of 36 sections (S4-S36). The map includes a river, a railroad, and various land parcels with acreage and survey data. The map is titled "Dakota Territory" and "Section 36".

The above plat of Township 2 north of the base line range 12 east of the 2<sup>d</sup> principal meridian, is correctly conformable to the first issue of this map, though in file in this office which have been examined and approved. The north boundary and the east boundary were surveyed in the 4<sup>th</sup> quarter of 1804. The north boundary the west boundary and the return line were surveyed in the 2<sup>d</sup> quarter of 1805, as by Richard Brown, junior, surveyor, containing dates the 26<sup>th</sup> November.

a copy of this plat was sent to the  
Genl. Land Office on 10<sup>th</sup> July 1842.

Aggregate area = 3087.31 acres

Township No 5 N Range 12 West of Second Meridian

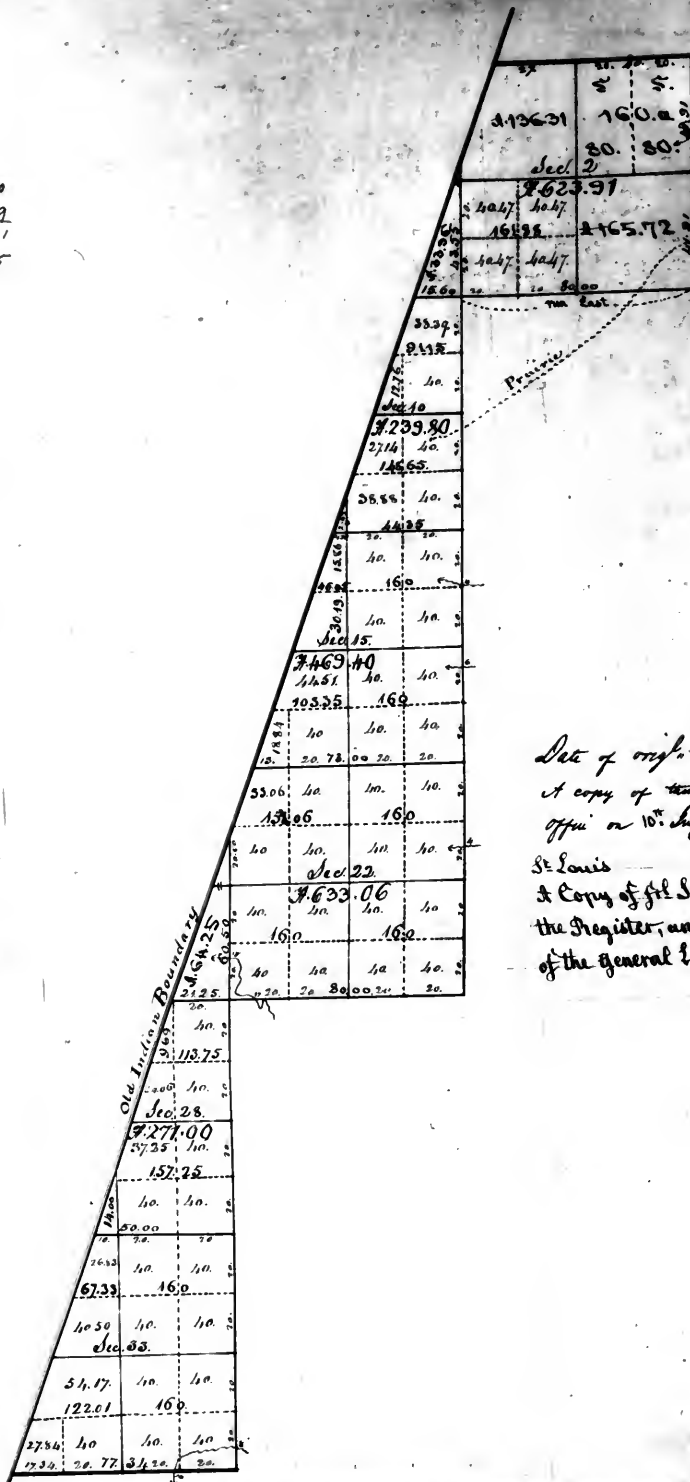

Pursuant to a Contract with and Instructions from William Newton Surveyor of the Lands of the United States in the Territories of Kansas and Missouri made on the 29th day of September 1818. I have administered and set out and surveyed the above described Township and Section and do hereby Certify that I have seen marks and corners both natural and Artificial as are represented on said Plat and described in the Survey Notes made thereof and return with this Plat into the Office of the Surveyor of the Lands of the United States for the Territories of Kansas and Missouri.

Wm M. Lee D.S.  
 Witness my hand and Seal this 20th day of June 1877

Map of the South-West quarter of Section 3, Township 12 North, Range 12 West of the 2nd Principal Meridian and East of Old Indian Boundary. Subdivided under the Act of Congress of the 5th April 1832.

Pursuant to a contract with and instructions from William Recker Surveyor of the Lands of the United States in the States of Illinois and Missouri and a Territory of Arkansas bearing date the Twentieth day of January 1821 I have a licensed land and area surveyed the above divided Township and do hereby certify that it had such measurement and bearing as is shown and is correct as are the sections and are returned with this plat into the office of the Surveyor of the Lands of the United States for the States of Illinois and Missouri and Territory of Arkansas the Twentieth day of September 1821

Examined

Wm W Norton Surveyor

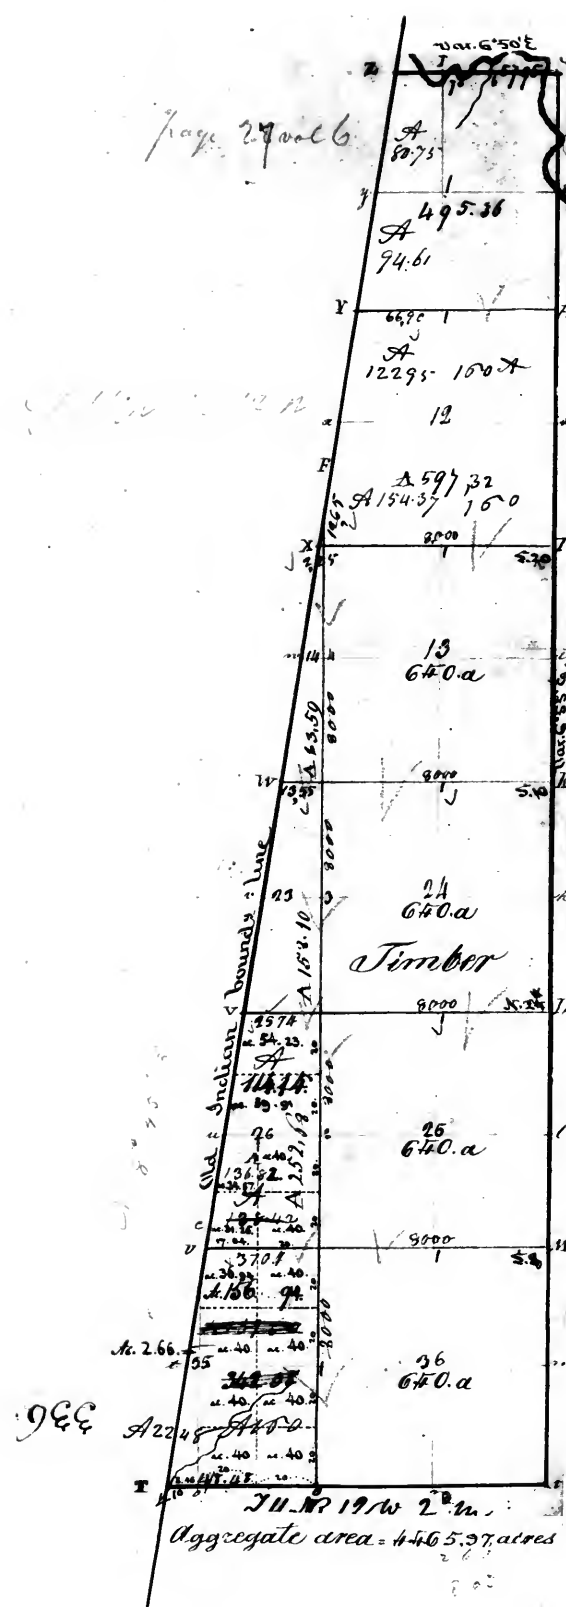

711 or 21260 2<sup>d</sup>  
 Plat of Fractional Sections 1, 12, 23, 26, and 35 in Township N. North of the Base Line, Range  
 12 West of the 2<sup>d</sup> Principal Meridian, and East of the Old Indian Boundary. Subdivision  
 under the Act of Congress of the 5<sup>th</sup> April 1832.

Date of orig. subdivision  
 of Secs. 26 and 35, Jan. 29<sup>th</sup> 1839.  
 Secs. 1, 12 and 23 not recorded.

A copy of this plat was sent to the  
 Genl. Land Office on 10<sup>th</sup> July 1842.

for the areas of Sects 1, 12, 23, 26 and 35 & annexed plat.

Note - From the field notes of the survey of this Township it appears that the fractl. Sect. lines on the East side of the Indian boundary line were run West from the proper Sect. corners and call for intersecting the said boundary at the distances set down on the plat where a corner was made but no connection is given in the notes with the mile points on the said Indian boundary. - The fractl. Sect. lines on the West side of said line were run East from the proper Sect. corners and the notes call for intersecting the Indian boundary at the distances set down on the plat where a corner was made. No connection is given with the mile points on the Indian boundary line. - The line between Sect 142 according to the notes was run South from the corner to Sect 35 & 26 and at 40.00 ch. a 1/4 Sec. corner was made and at 51.11 ch. a corner was made in the Indian bound. line. - There must be a mistake about the length of this line betw. Sect 142, for if the line betw. said sects is run parallel to the line betw. Sect 24 & 25 it would intersect the bound. line at about 9.50 chains. The area 319 ac. of fractl. Sect. 1 (West of Ind. bound.) is according to the length of the line betw. Sect 142 as given in the field notes. -

Surveyors Office  
St. Louis Mo Jan 5 1839

Surveyors Office.  
Saint Louis 9th of December 1841.

The above plat of township 5 north of the base line range 13 west of the 2nd principal meridian is strictly conformable to the field notes of the Survey thereof on file in this office which have been examined and approved. The west boundary was surveyed in December 1818, by Dennis Sullivan, under contract of the 4th of November of that year. In the latter part of 1839, Henry W. Conrad under contract of the 17th May 1839, resurveyed a part of this west boundary, for which he was paid in the 4th quarter of 1839 (See invoice No 8 of account current of the Surveyor General under the General appropriation during said quarter). The South boundary west of the Indian line - The East boundary north of the Indian line - The north boundary - and the subdivision lines were surveyed by J. B. McCall, in the 1st quarter of 1841, under contract of the 28th of November 1841 - No notes are found of the Indian boundary line on the East of Section 36.
